

The Translucent loose powder – can be used by itself if you don't want any foundation color.

Use the little mini brush. Pull the clear plastic tab off the 3 holes to open it. Shake it with cover on to release some of the powder. Dab the brush in the powder. With cover in your other hand with the inside of the cover up, tap on the cover with the brush to get the excess powder off the brush. Then swirl the brush on the inside of the cover to evenly distribute the powder on the brush...

Dab the powder

Tap off excess into cover

Swirl brush in the excess powder in the cover

Then apply to face in downward motion.
